EDITOR *British Medical Journal*

The object of *Gut* is to publish original papers and reviews concerned with practice and research in the field of gastroenterology. The field is that of alimentary, hepatic, or pancreatic disease, and papers may cover the medical, surgical, radiological, or historical aspects. They may also deal with the basic sciences concerned with the alimentary tract, including experimental work. The report of a single case will be accepted only if it is of sufficient interest in relation to a wider field of research.

There will be a section devoted to short papers on laboratory and surgical techniques and methods of investigation where these are not part of a lesser survey.

COMMUNICATIONS Papers should be addressed to the Editor, *Gut*, B.M.A. House, Tavistock Square, London, W.C.1. Papers are accepted only on the understanding that they are not published elsewhere without previous sanction of the Editorial Board. They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing Christian name) only, and the name and address of the hospital or laboratory where the work was performed. A definition of the position held by each of the authors in the hospital or laboratory should be stated in a covering letter to the Editor. Communications should be kept short, and illustrations should be included when necessary; coloured illustrations are allowed only if monochrome will not satisfactorily demonstrate the condition. It is not desirable that results should be shown both as tables and graphs.

ILLUSTRATIONS Diagrams should be drawn in Indian ink on white paper, Bristol board, or blue-squared paper. The legends for illustrations should be typed on a separate sheet and numbered to conform with the relevant illustrations. Photographs and photomicrographs should be on glossy paper, unmounted. **TABLES** should not be included in the body of the text, but should be typed on a separate sheet.

ABBREVIATIONS In general, symbols and abbreviations should be those used by British Chemical and Physiological Abstracts. In any paper concerning electrolyte metabolism, it is desirable that data be calculated as mEq./l. as well as (or alternatively to) mg./100 ml.

REFERENCES These should be made by inserting the name of the author followed by year of publication in brackets. At the end of the paper, references should be arranged in alphabetical order of author's name. Such references should give author's name, followed by initials and year of publication in brackets, *the title of the article quoted*, the name of the journal in which the article appeared, the volume number in arabic numerals, followed by numbers of first and last pages of article. Abbreviations are according to *World Medical Periodicals* (published by B.M.A. for World Medical Association), thus: Chandler, G. N., Cameron, A. D., Nunn, A. H., and Street, D. F. (1960). Early investigations of haematemesis. *Gut*, 1, 6-13.

REPRINTS Fifty reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; an indication of the number of reprints required should be sent to the Publishing Manager on the post-card provided with the proofs.

NOTICE TO ADVERTISERS Applications for advertisement space and for rates should be addressed to the Advertisement Manager, *GUT*, B.M.A. House, Tavistock Square, London, W.C.1.

NOTICE TO SUBSCRIBERS The annual subscription rate is £4 4s. in the United Kingdom and the Republic of Ireland, and £4 15s. (U.S.A. \$14.00) in all countries overseas. Payment for overseas subscriptions should be made in sterling, *i.e.*, £4 15s., and sent by Mail Transfer—*Charges Remitter*—through a Bank. Orders can also be placed locally with any leading subscription agent or bookseller. (For the convenience of readers in the U.S.A. subscription orders, with or without payment, can also be sent to: BRITISH MEDICAL JOURNAL, 80 Brighton Avenue, Boston, Mass. 02134. All inquiries, however, must be addressed to the Publisher in London.)

The February 1966 Issue

THE FEBRUARY 1966 ISSUE CONTAINS THE FOLLOWING PAPERS

- Ischaemic colitis ADRIAN MARSTON, MURRAY T. PHEILS, M. LEA THOMAS, and B. C. MORSON
- Early course of ulcerative colitis J. MCK. WATTS, F. T. DE DOMBAL, G. WATKINSON, and J. C. GOLIGHER
- Auto-immune reactions in ulcerative colitis RALPH WRIGHT and S. C. TRUELOVE
- Some observations on the response of normal human sigmoid colon to drugs *in vitro* P. G. WRIGHT and J. J. SHEPHERD
- Effect of secretin and cholecystokinin-pancreozymin extracts on gastric motility in man L. P. JOHNSON, J. C. BROWN, and D. F. MAGEE
- Inhibition of histamine-stimulated gastric secretion by acid in the duodenum in man D. JOHNSTON and H. L. DUTHIE
- Proteolytic activity in the human stomach during digestion and its correlation with the augmented histamine test S. J. RUNE
- Two cases of acute torsion of the gall bladder MONORANJAN DUARI
- Cirrhosis and hepatoma in alcoholics FRANK I. LEE
- Histochemical study on the Paneth cell in the rat E. O. RIECKEN and A. G. E. PEARSE
- Role of the azygos venous system in the investigation of portal hypertension M. JOHN MURRAY
- Intrinsic factor secretion in gastric atrophy S. ARDEMAN and I. CHANARIN
- The British Society of Gastroenterology
