

Gut

The Journal of the British Society of Gastroenterology

Contents Vol. 14, No. 6, June 1973

A possible relationship to treatment between hepatitis-associated antigen and chronic persistent hepatitis in Hodgkin's disease M. J. GRANGE, S. ERLINGER, F. TEILLET, N. SCHLEGEL, J. BARGE, AND C. DEGOTT *page 433*

Liver structure and function following small bowel resection M. C. GUPTA, GRAHAM NEALE, AND R. HERMON DOWLING *page 438*

Asymptomatic primary biliary cirrhosis R. A. FOX, P. J. SCHEUER, AND SHEILA SHERLOCK *page 444*

Primary biliary cirrhosis in India A. K. S. SAMANTA, A. G. BHAGWAT, M. MUKHERJEE, N. M. GUPTA, S. SEHGAL, AND D. V. DATTA *page 448*

Serum complement in chronic liver disease B. J. POTTER, ANGELA M. TRUEMAN, AND E. A. JONES *page 451*

The effect of glucagon on serum gastrin

I Studies in normal subjects J. HANSKY, C. SOVENY, AND M. G. KORMAN *page 457*

II Studies in pernicious anaemia and the Zollinger-Ellison syndrome M. G. KORMAN, C. SOVENY, AND J. HANSKY *page 459*

Effect of nephrectomy on the rate and pattern of the disappearance of exogenous gastrin in dogs B. GUY CLENDINNEN, DAVID D. REEDER, E. N. BRANDT, JR, AND JAMES C. THOMPSON *page 462*

The gastric secretory response to a continuous insulin infusion in the dog R. R. DOZOIS, D. C. CARTER, AND J. R. KIRKPATRICK *page 468*

A double isotope technique for the evaluation of drug action on gastric evacuation and small bowel propulsion studied in the rat FOLKE NILSSON AND HENRY JOHANSSON *page 475*

Periodic hypokalaemic paralysis, adrenal adenoma, and normal colonic transport of sodium and potassium PETER RICHARDS, M. B. S. JONES, AND W. S. PEART *page 478*

The influence of secretin on ion transport in the human jejunum T. HICKS AND L. A. TURNBERG *page 485*

Immunochemical study of the malabsorption syndrome with cow's milk intolerance E. SAVILAHTI *page 491*

The significance of enzyme histochemical patterns in carcinomas of the large intestine in man F. MCGINTY, G. DELIDES, AND D. HARRISON *page 502*

Progress report Experimental ulcerative disease of the colon in animals J. WATT AND R. MARCUS *page 506*

Notes and activities *page 511*
