

Gut

The Journal of the British Society of Gastroenterology

Contents Vol. 15, No. 7, July 1974

Interpretation of fluctuation of transmural potential difference across the proximal small intestine DAVID WINGATE, ROGER GREEN, JOHN SYMES, AND MARIANNE PILOT *page 515*

Faecal fat excretion after truncal, selective, and highly selective vagotomy for duodenal ulcer J. P. EDWARDS, P. J. LYNDON, R. B. SMITH, AND D. JOHNSTON *page 521*

Serum gastrin and gastric acid responses to meals at various pH levels in man S. J. KONTUREK, J. BIERNAT, AND J. OLEKSY *page 526*

Electron microscopic study on the jejunal mucosa in human cholera HITOSHI ASAKURA, MASAHARU TSUCHIYA, YOONOSUKE WATANABE, YASUHIRO ENOMOTO, AKIRA MORITA, TETSUO MORISHITA, HIDEO FUKUMI, MAKOTO OHASHI, ANTONINA CASTRO, AND CEZAR UYLANGCO *page 531*

Reaction of human small intestine to an intraluminal tube and its importance in jejunal perfusion studies G. C. COOK AND R. H. CARRUTHERS *page 545*

The liver in boutonneuse fever J. GUARDIA, J. M. MARTÍNEZ-VÁZQUEZ, A. MORAGAS, C. REY, J. VILASECA, J. TORNOS, M. BELTRÁN, AND R. BACARDÍ *page 549*

Why are small bowel tumours rare? An experimental model K. C. CALMAN *page 552*

Treatment of chronic hepatic encephalopathy with levodopa MICHAEL LUNZER, I. M. JAMES, J. WEINMAN, AND SHEILA SHERLOCK *page 555*

Malignancy, weight loss, and the small intestinal mucosa R. E. BARRY *page 562*

Technique

A rapid method of obtaining a jejunal biopsy using a Crosby capsule and a gastrointestinal fiberscope B. J. PROUT *page 571*

Progress report Antitrypsin and the liver PETER W. BRUNT *page 573*

Progress report Chronic hepatitis SHEILA SHERLOCK *page 581*

Notes and activities *page 598*
