

# Gut

AN INTERNATIONAL JOURNAL OF GASTROENTEROLOGY AND HEPATOLOGY

- |                                     |  |
|-------------------------------------|--|
| <b>Leading articles</b>             | 865 Inflammatory bowel disease – a radical view <i>N J Simmonds, D S Rampton</i>   |
|                                     | 869 Crohn's disease: the genetic contribution <i>Jeffrey Sofaer</i>  |
| <hr/>                               |  |
| <b>Upper gastrointestinal tract</b> | 872 Measurement of bicarbonate output from the intact human oesophagus <i>C M Brown, C F Snowdon, B Slee, L N Sandle, W D W Rees</i>   |
|                                     | 881 Fibroblast growth factor in gastroprotection and ulcer healing: interaction with sucralfate <i>Stanislaw J Konturek, Tomasz Brzozowski, Jolanta Majka, Aleksandra Szlachcic, Wladyslaw Bielanski, Jerzy Stachura, Wilhelm Otto</i> |
|                                     | 888 Acid secretion and sensitivity to gastrin in patients with duodenal ulcer: effect of eradication of <i>Helicobacter pylori</i> <i>Steven F Moss, John Calam</i>  |
|                                     | 893 Study of the proliferation in human gastric mucosa after in vivo bromodeoxyuridine labelling <i>S Patel, D A Rew, I Taylor, C S Potten, C Owen, S A Roberts</i>  |
|                                     | 897 Ablation of capsaicin sensitive afferent nerves impairs defence but not rapid repair of rat gastric mucosa <i>M A Pabst, E Schöninkle, P Holzer</i>  |
| <hr/>                               |  |
| <b>Motility</b>                     | 904 Effect of gastro-oesophageal reflux on upper oesophageal sphincter motility in children <i>J Willing, G P Davidson, J Dent, I Cook</i>   |
|                                     | 911 Regulation of gall bladder motility by the arginine-nitric oxide pathway in guinea pigs <i>Marisabel Mourelle, Francisco Guarner, Xavier Molero, Salvador Moncada, Juan-R Malagelada</i>   |
|                                     | 916 Isotope gastric emptying tests in clinical practice: expectation, outcome, and utility <i>M A Galil, M Critchley, C R Mackie</i>   |
|                                     | 920 Evidence of a dominant role for low osmolality in the efficacy of cereal based oral rehydration solutions: studies in a model of secretory diarrhoea <i>A V Thillainayagam, S Carnaby, J A Dias, M L Clark, M J G Farthing</i>     |
| <hr/>                               |  |
| <b>Inflammatory bowel disease</b>   | 926 Glycosylation and sulphation of colonic mucus glycoproteins in patients with ulcerative colitis and in healthy subjects <i>H Morita, M G W Kettlewell, D P Jewell, P W Kent</i>  |
|                                     | 933 Serum carnitine concentrations in coeliac disease <i>A Lerner, N Gruener, T C Iancu</i>  |
|                                     | 936 Location of superoxide anion generation in human colonic mucosa obtained by biopsy <i>N Oshitani, A Kitano, H Okabe, S Nakamura, T Matsumoto, K Kobayashi</i>  |
|                                     | 939 Growth and clinical course of children with Crohn's disease <i>Anne M Griffiths, Phuongbich Nguyen, Claire Smith, James H MacMillan, Philip M Sherman</i>  |
|                                     | 944 Insulin like growth factor-I, insulin like growth factor binding protein-1, and insulin in childhood Crohn's disease <i>A G Thomas, J M P Holly, F Taylor, V Miller</i>  |
