

GUT

The Journal of The British Society of Gastroenterology

CONTENTS

- Cancer in ulcerative colitis B. C. MORSONpage 425
- Risk of malignant change in ulcerative colitis J. M. HINTONpage 427
- Liver in ulcerative colitis: Obstructive jaundice due to bile duct carcinoma J. G. RANKIN, A. P. SKYRING, and S. J. M. GOULSTONpage 433
- Ulcerative post-dysenteric colitis S. J. POWELL and A. J. WILMOTpage 438
- Massive necrosis of the colon due to amoebiasis D. M. ESSENHIGH and R. L. CARTERpage 444
- Experience in the treatment of Crohn's disease of the large intestine J. HOWEL JONES, J. E. LENNARD-JONES, and H. E. LOCKHART-MUMMERYpage 448
- Diffuse reticulum cell sarcoma of the gastrointestinal tract: A problem in diagnosis K. W. HEATON, J. S. CORNES, and A. E. READpage 453
- Clinical, histochemical, and electron microscopic study of colonic histiocytosis FRED E. PITTMAN, W. THOMAS SMITH, ABRAHAM MIZRAHI, WILLIAM A. BLANC, and JOAN C. PITTMANpage 458
- Comparison of the effect of meals and prostigmine on the proximal and distal colon in patients with and without diarrhoea J. J. MISIEWICZ, A. M. CONNELL, and F. A. PONTESpage 468
- Acid secretory response to graded doses of histamine after 'medical vagotomy' S. RAJU and F. M. NARIELVALApage 474
- Tuberculosis of the terminal ileum J. WINTER and M. GOLDMANpage 478
- Small intestine peroral biopsy in coeliac children WILFRID SHELDON and EDWARD TEMPANYpage 481
- A household epidemic of tropical sprue V. I. MATHAN, M. IGNATIUS, and S. J. BAKERpage 490
- Ammonia in the upper gastrointestinal tract of man: Quantitations and relationships W. H. J. SUMMERSKILL, TOSHIO AOYAGI, and WILLIAM B. EVANSpage 497
- pH of the contents of the duodenal bulb in relation to duodenal ulcer J. RHODES, H. T. APSIMON, and J. H. LAWRIEpage 502
- Acidity at different sites in the proximal duodenum of normal subjects and patients with duodenal ulcer J. RHODES and C. J. PRESTWICHpage 509
- Mechanics of gastroduodenal emptying J. RHODES, P. GOODALL, and H. T. APSIMONpage 515
- Relation between pressure and volume in hollow viscera ANTHONY HOPKINSpage 521
- Influence of the ABO blood group and salivary ABH secretor status on the cell-removing effect of aspirin on human gastric mucosa LEON HORWICH and DAVID A. PRICE EVANSpage 525
- Iron absorption in normal and d, l-ethionine-treated rats before and after the administration of pancreatin B. BROZOVIĆ, O. POPOVIĆ, D. OBRADOVIĆ, and SMLJA PENDIĆpage 531
- Observations on the temperature causing mucosal damage in the dog during gastric freezing J. E. LENNARD-JONES, T. SMITH, G. FARRER-BROWN, and R. D. PEDUZZIpage 535
- Gastric cancer in Wales DAVID J. B. ASHLEY and H. DUNCAN DAVIESpage 542
- Plasma and salivary thiocyanate in gastric cancer M. J. S. LANGMAN, RICHARD DOLL, and JOHN WILSONpage 549
- Pneumatosis cystoides intestinalis D. T. D. HUGHES K. C. D. GORDON, J. C. SWANN, and G. L. BOLTpage 553
- Caecal pH and ammonia in experimental uraemia E. BOURKE, M. D. MILNE, and G. S. STOKESpage 558
- Effect of quinidine on electrical and motor activity of canine small bowel J. MARSHALL GARRETT, JERRY F. SCHLEGEL, and CHARLES F. CODEpage 562
- Methods and techniques*
- Simplified technique of immuno-electrophoretic assay of human intrinsic factor on acrylamide gel K. D. BARDHAN, S. T. CALLENDER, and G. H. SPRAYpage 566
