

# duphalac<sup>®</sup> in lactulose liver failure

*Duphalac (lactulose) is now well established as a valuable agent in the treatment of portal-systemic encephalopathy. A recent review in Gut\* describes its role in these terms.*

"Lactulose is a useful addition to the existing treatment of cirrhotic patients with neuropsychiatric disorders. Most patients respond particularly those with mild and relatively stable symptoms; such patients may receive lactulose indefinitely, and enjoy improved tolerance of dietary protein . . .  
. . . lactulose is free from significant side effects, and therefore falls into place as a valuable alternative to antibiotics when prolonged therapy is required". \*Gut, 1970, 11: 1043-1048

**The following work on Duphalac in portal systemic encephalopathy has been published:**

Treatment of chronic portal-systemic encephalopathy with lactulose *Lancet*, 1968, 1: 890-892

Portal-systemic encephalopathy treated with lactulose (letter) *Lancet*, 1968, 2: 281

Treatment of hepatic system encephalopathy with lactulose *Medical Journal of Australia*, 1968, 2: 160-163

Treatment of portacaval encephalopathy by lactulose *Presse medicale*, 1968, 76: 1675-1676

Cirrhosis, hyperammonaemia and lactulose *Tijdschrift voor Gastro-Enterologie*, 1968, 11: 123-139

# VIVONEX

In the surgical and medical management of the bowel:

- \* Causes no endogenous residue
- \* Leaves the intestine virtually free of faeces before surgery
- \* Provides total oral nutrition (even when there is minimal gastrointestinal function)
- \* Rests the inflamed bowel – ideal for Crohn's disease
- \* Limits physical and bacterial insult to fistulae
- \* Contains no milk or milk by-products
- \* Offers an oral alternative to parenteral feeding

because of  
persistent  
diarrhoea

Persistent diarrhoea is one of the commonest presenting symptoms of irritable colon—and it is quickly and easily controlled by Colofac. Colofac reduces colonic hyperactivity by a direct action exerted on the colon musculature. There are no atropine-like side effects or contra-indications. Colofac is supplied as tablets of 100 mg. mebeverine hydrochloride. Full information is available on request.

# There's only one healing agent for peptic ulcers as well documented as Biogastrone

## and that's Duogastrone

Carbenoxolone is the most thoroughly investigated healing agent available today—and interesting evidence is still mounting. For instance, a recent report\* suggests very strongly that carbenoxolone's proven healing properties are not only due to an increase in protective mucus or the creation of a more favourable healing environment—but also to more radical influences. These investigations appear to demonstrate that carbenoxolone actually prolongs the life-span of mucosal epithelial cells and reduces the rate of cell turnover.

Fascinating findings which shed new light on the disease process and provoke re-appraisal of current therapies.\*Gut, 1971, 12, 599-603

*Acta Gastroenterologica Latinoamericana* is a tri-monthly publication sponsored by the *Asociación Interamericana de Gastroenterología*. It is edited by a non profit organization. The Editorial Board is formed by relevant gastroenterologists from all the Latin American countries.

Papers are published in Spanish, Portuguese, English and French languages. An English abstract gives precise statements of the studies done in each paper.

Subscription \$9.00 USA per year.

Address: Pol. A. Posadas, Martínez de Hoz y Perdriel, Haedo, Rep. Argentina.

# TODAY'S DRUGS/3

The third and final volume of the 'Today's Drugs' series, like its predecessors, is based on *B.M.J.* articles revised and brought up to date by their authors. It deals with respiratory agents, drugs acting on the central nervous system, and a miscellaneous group of drugs.

*Demy Octavo—Paperback—191 pages*

**Price £1.25 (U.S.A. \$3.75), including postage**

Copies of *Today's Drugs/3* are available direct from  
The Publisher, BRITISH MEDICAL JOURNAL, BMA House,  
Tavistock Square, London WC1H 9JR or through any leading bookseller

## PUBLIC SERVICE OF SOUTH AUSTRALIA

GASTROENTEROLOGIST  
Hospitals Department  
The Queen Elizabeth Hospital

Salary Limits: \$11604/13104 } per annum accord-  
\$13604/15104 } ing to qualification  
and experience

*Duties:* Senior staffing of the Gastroenterology Unit will include a Director (full-time) and there is at present one Deputy Director (half-time). The Gastroenterologist will be responsible for some of the administration of the Unit, performance of inpatient and outpatient consultations, performance of special investigations, such as endoscopy. He will be expected to initiate research studies and participate in the teaching activities.

*Qualifications:* Status of a Consultant Gastroenterologist.

*Special Conditions:* Initially an appointment will be made on a half-time basis with salary adjusted according to hours worked.

Applications, including full name, address, date of birth and details of war service (if any), for the position set out above, marked confidential and addressed to The Administrator, The Queen Elizabeth Hospital, Woodville, 5011.
