EDITOR *British Medical Journal*

GUNILLA LIDDLE (*Technical Editor*)

The object of *Gut* is to publish original papers and reviews concerned with practice and research in the field of gastroenterology. The field is that of alimentary, hepatic, or pancreatic disease, and papers may cover the medical, surgical, radiological, or historical aspects. They may also deal with the basic sciences concerned with the alimentary tract, including experimental work. The report of a single case will be accepted only if it is of sufficient interest in relation to a wider field of research.

There will be a section for short papers on laboratory and surgical techniques and methods of investigation.

COMMUNICATIONS Papers should be addressed to the Editor, *Gut*, BMA House, Tavistock Square, London, WC1H 9JR. Papers are accepted only on the understanding that they are not published elsewhere without previous sanction of the Editorial Committee. They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing Christian name) only, and the name and address of the hospital or laboratory where the work was performed. A definition of the position held by each of the authors in the hospital or laboratory should be stated in a covering letter to the Editor. Communications should be kept short, and illustrations should be included when necessary; coloured illustrations are allowed only if monochrome will not satisfactorily demonstrate the condition. It is not desirable that results should be shown both as tables and graphs.

ILLUSTRATIONS Diagrams should be drawn in indian ink on white paper, Bristol board, or blue-squared paper. The legends for illustrations should be typed on a separate sheet and numbered to conform with the relevant illustrations. Photographs and photomicrographs should be on glossy paper, unmounted. TABLES should not be included in the body of the text, but should be typed on a separate sheet.

ETHICS The critical assessment of papers submitted will include ethical considerations. Authors are referred to publications on ethics of human experimentation by the Medical Research Council in Britain and to the code of ethics of the World Medical Association known as the Declaration of Helsinki (see *Brit. med. J.*, 1964, 2, 177).

ABBREVIATIONS In general, symbols and abbreviations should be those used by the Biochemical Journal. In any paper concerning electrolyte metabolism, it is desirable that data be calculated as m-equiv/l. All measurements should be expressed in SI units and authors are referred to *J. clin. Path.*, 27, 590-597.

REFERENCES These should be made by inserting the name of the author followed by year of publication in brackets. At the end of the paper, references should be arranged in alphabetical order of authors' names. Such references should give authors' name, followed by initials and year of publication in brackets, the *title of the article quoted*, the name of the journal in which the article appeared, the volume number in arabic numerals, followed by the numbers of first and last pages of the article. Abbreviations are according to *World Medical Periodicals* (published by BMA for World Medical Association), thus: Chandler, G. N., Cameron, A. D., Nunn, A. H., and Street, D. F. (1960). Early investigations of haematemesis. *Gut*, 1, 6-13.

REPRINTS Fifty reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; an indication of the number of reprints required should be sent to the Publishing Manager on the form provided with the proof.

NOTICE TO ADVERTISERS Application for advertisement space and for rates should be addressed to the Advertisement Manager, *Gut*, BMA House, Tavistock Square, London, WC1H 9JR.

NOTICE TO SUBSCRIBERS *Gut* is published monthly. The annual subscription rate is £16.00 in the United Kingdom and the Republic of Ireland, and £19.00 [\$46.50 USA] by surface mail in all countries overseas. Payments for overseas subscriptions should be made in sterling, *ie*, £19.00, and sent by Mail Transfer—*Charges Remitter*—through a Bank to the British Medical Association. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can also be sent to: *British Medical Journal*, 1172 Commonwealth Avenue, Boston, Mass. 02134. All enquiries however, must be addressed to the Publisher in London.) All enquiries regarding Air Mail rates and single copies already published should be addressed to the Publisher in London.

The November 1974 Issue

THE NOVEMBER 1974 ISSUE CONTAINS THE FOLLOWING PAPERS

Excisional surgery with ileostomy for Crohn's colitis with particular reference to factors affecting recurrence D. M. STEINBERG, R. N. ALLAN, H. THOMPSON, B. N. BROOKE, J. ALEXANDER-WILLIAMS, AND W. T. COOKE

Oesophageal acid clearing: One factor in the production of reflux oesophagitis C. STANCIU AND JOHN R. BENNETT

Hyperphagia in intestinal disease R. J. C. HALL AND B. CREAMER

The toxicity of certain cereal proteins in coeliac disease H. J. CORNELL AND R. R. W. TOWNLEY

Measuring the response of the jejunal mucosa in adult coeliac disease to treatment with a gluten-free diet B. L. CHAPMAN, K. HENRY, F. PAICE, N. F. COGHILL, AND J. S. STEWART

Localization of calcium-binding protein in intestinal tissue by immunofluorescence in normal, vitamin-D-deficient and uraemic subjects K. HELMKE, K. FEDERLIN, P. PIAZOLO, J. STRÖDER, R. JESCHKE, AND H. E. FRANZ

Duodenal reflux during insulin-stimulated secretion R. G. FABER, R. C. G. RUSSELL, C. M. S. ROYSTON, P. WHITFIELD, AND M. HOBSLEY

A comparison between secretin alone and sequential and simultaneous secretin and cholecystokinin administration in the assessment of pancreatic function JONATHAN CLAIN, SIMMY BANK, G. O. BARBEZAT, B. H. NOVIS, AND I. N. MARKS

The role of secretin in the inhibition of gastric secretion by intraduodenal acid A. S. WARD AND S. R. BLOOM

Utilization of urea nitrogen for albumin synthesis in the stagnant loop syndrome RAE VARCOE, D. HALLIDAY, AND A. S. TAVILL

Thoracic duct and hepatic lymph in idiopathic portal hypertension A. K. S. SAMANTA, V. K. SAINI, P. N. CHHUTANI, B. S. PATRA, S. VASHISTA, AND D. V. DATTA

A study of carbohydrate metabolism in postnecrotic cirrhosis of liver ROSE T. T. YEUNG AND CHRISTINA C. L. WANG

Progress report The present position concerning gallstone dissolution G. D. BELL

Notes and activities

Copies are still available and may be obtained from the PUBLISHING MANAGER, BRITISH MEDICAL ASSOCIATION, TAVISTOCK SQUARE, LONDON, WC1H 9JR, price 87½p

Notes and activities

Spring Meeting of the British Society of Gastroenterology

The spring meeting of the Society will take place in Southampton on 11 and 12 April 1975 and will be preceded by a meeting of the Liver Club on 10 April, and there will be a joint symposium with the Liver Club on hepatic immunology.

Abstracts must reach the Honorary Secretary (J. J. Misiewicz) at the MRC Gastroenterology Unit, Central Middlesex Hospital, Park Royal, London NW10 7NS by Saturday 25 January 1975. They should be no more than 200 words in length and contain no more than three references. They should be typed on one side only of A4 paper and should be headed by title and authors with the name of the speaker first and underlined and with the address of the institution at which the work was performed. Eight copies of each abstract are required. One graph or one table can be stapled to the underside of each copy of the abstract at the discretion of the author. This will allow the Selection Committee to judge the data better. Figures will not be published in the handbook or in *Gut* in the event of the abstract being selected for the meeting.

Registration forms and provisional programmes will be circulated to the members at a later date.

British Society for Digestive Endoscopy

The spring meeting of the British Society for Digestive Endoscopy will be held at Harrogate on 13, 14, and 15 February. The first day will be devoted to basic techniques of endoscopy and the aim will be to teach beginners in small groups.

The second day will consist of advanced endoscopic techniques, and the final day will be the annual meeting of the Society with short papers and symposia.

The meeting is open to anyone who is interested, and further details may be obtained from the Secretary, Dr D. G. Colin-Jones, Postgraduate Medical Centre, Southampton General Hospital, Southampton SO9 4XY.

Symposium of Gastrointestinal Research

The symposium, sponsored by the Mayo Foundation in honour of Charles F.

Code, will be a series of research fora, introduced by keynote speakers and including reports of current work from alumni and colleagues of Dr Code. The meeting will be held in Rochester, Minnesota, on 21-22 February 1975.

Limited open registration is available to anyone interested in attending. Further information can be obtained from: Mr William Nietz, Section of Communications, Mayo Clinic, Rochester, MN 55901.

Fifth International Symposium on Gastrointestinal Motility

The fifth international symposium on gastrointestinal motility will meet at the University of Leuven, Belgium, on 3, 4, 5, and 6 September 1975. The theme will be: 'Nature and control of gastrointestinal motility—normal and abnormal mechanisms'. Abstracts of reports, dealing with basic and clinical aspects of gastrointestinal motility, will be considered for presentation by an international Program Committee. The abstracts should not exceed 300 words. Time and facilities will allow no more than 100 participants. Advance registration is required. Please submit abstracts and requests to attend to the Program Committee by 1 April 1975: Program Committee, Fifth International Symposium on Gastrointestinal Motility, p.a. G. Vantrappen, Akademisch Ziekenhuis St. Rafaël, 3000-Leuven, Belgium.

Second International Symposium on Digestive Endoscopy

The second international symposium on digestive endoscopy will be held in Brussels on 17, 18, and 19 January 1975. The three main subjects are 'New fields in digestive endoscopy', 'Surgical endoscopy', and 'Teaching of endoscopy'. Official languages are English, French, and Dutch. All information can be obtained from the Société Belge d'Endoscopie Digestive, R. de la Réforme 60, B-1060 Brussels, Belgium.

Notes on books

Intestinal Adaptation edited by R. H. Dowling. (Pp. ix + 271; 111 figures; 43 tables. DM 36.—.) F. K. Schattauer Verlag, Stuttgart. 1974. A conference on intestinal adaptation was held in the Black Forest in May 1973. The proceedings have now appeared. They include anatomy, physiology, biochemistry, small bowel resection in man and animals, starvation, and the hormonal factors in intestinal adaptation. This is a very comprehensive monograph which will be of interest to all those working in the field.

Parenteral Nutrition in Acute Metabolic Illness edited by H. A. Lee. (Pp. xiii + 453; illustrated. £9.00.) Academic Press, New York and London. 1974. Parenteral therapy is increasingly important in the management of serious gastro-intestinal crises and prolonged treatment may be needed. This is an authoritative, high-level edited publication bringing together theory and practice with contributions from a number of intensive care and metabolic centres in Great Britain and Scandinavia.

Abdominal Operations Volumes 1 and 2 6th edition. By Rodney Maingot and British and American contributors. (Pp. Vol. 1: xxix + 1194 + index; Vol. 2: xxiii + 1195-2240 + index; illustrated. £42.90.) Appleton-Century-Crofts, New York. 1974. This sixth edition has maintained both girth and stature and will retain a major role in international surgery. The editor has once again brought together all the appropriate leading experts from both sides of the Atlantic. A not inexpensive but nevertheless a vital publication for all hospital libraries.

Index for Gut 1974

In order not to delay publication the index for *Gut* for 1974 will be printed separately from the journal and will be sent to all subscribers early in the New Year.

<i>Progress report</i>	
Electrical activity of gastrointestinal smooth muscle H. L. DUTHIE	669
Notes and activities	682
Notes on books	682

No. 9 SEPTEMBER 1974

Isolation of two minigastrins from Zollinger-Ellison tumour tissue R. A. GREGORY AND HILDA J. TRACY	683
Pure human minigastrin: secretory potency and disappearance rate HAILE T. DEBAS, JOHN H. WALSH, AND MORTON I. GROSSMAN	686
Radioimmunoassay of cholecystokinin-pancreozymin R. F. HARVEY, LYNDIA DOWSETT, M. HARTOG, AND A. E. READ	690
Interaction of pentagastrin and the octapeptide of cholecystokinin on the human lower oesophageal sphincter RICHARD A. L. STURDEVANT AND THOMAS KUN	700
Effect of calcitonin on the formation, composition, and enzymatic activity of the hepatic bile in guinea pigs A. TARNAWSKI, J. BOGDAŁ, K. DURA, Z. MARSZALEK, AND A. JEDRYCHOWSKI	703
Supersensitivity to pentagastrin in diffuse oesophageal spasm V. ECKARDT AND H. WEIGAND	706
Lysolecithin: A factor in the pathogenesis of gastric ulceration? A. G. JOHNSON AND SUSAN J. MCDERMOTT	710
Gastric acid secretion and risk of recurrence of duodenal ulcer within six to eight years after truncal vagotomy and drainage O. KRONBORG	714
Cellular localization of a vasoactive intestinal peptide in the mammalian and avian gastrointestinal tract JULIA M. POLAK, A. G. E. PEARSE, J-C. GARAUD, AND S. R. BLOOM	720
An evaluation of the rosette inhibition test in Crohn's disease J. R. CLARKE, E. R. RICHENS, M. J. WILLIAMS, K. R. GOUGH, AND R. J. ANCILL	725
Luminal distension as a possible consequence of experimental intestinal perfusion DAVID WINGATE, ASHLEY HYAMS, AND SIDNEY PHILLIPS	728
The epidemiological importance of 'ay' and 'ad' subtypes of the HB-Ag F. PONS-ROMERO, J. HEATHCOTE, AND S. SHERLOCK	733
A morphometric study of the endoplasmic reticulum in human hepatocytes A. M. JÉZÉQUEL, M. KOCH, AND F. ORLANDI	737
<i>Progress report</i>	
Highly selective vagotomy DAVID JOHNSTON	748
<i>Progress report</i>	
Laxative abuse JOHN H. CUMMINGS	758

No. 10 OCTOBER 1974

	<i>Page</i>
Mucous change in the human duodenum: A light and electron microscopic study and correlation with disease and gastric acid secretion W. J. A. PATRICK, D. DENHAM, AND A. P. M. FORREST	767
Enzyme histochemical study of fat absorption in human duodenal mucosa H. MONGES, A. CHAMLIAN, A. COUGARD, AND B. MATHIEU	777
An investigation into the enzyme histochemistry of adenocarcinomas of human large intestine and of the transitional epithelium immediately adjacent to them J. R. MARSDEN AND I. M. P. DAWSON	783
The relief of bone pain in primary biliary cirrhosis with calcium infusions A. B. AJDUKIEWICZ, J. E. AGNEW, P. D. BYERS, M. R. WILLS, AND SHEILA SHERLOCK	788
Haemolysis in experimental cholestasis: Possible role of erythrocyte sialic acid LAWRIE W. POWELL, J. THOMAS LAMONT, AND KURT J. ISSELBACHER	794
A comparison of the accuracy of peritoneoscopy and liver biopsy in the diagnosis of cirrhosis M. BRUGUERA, J. M. BORDAS, P. MAS, AND J. RODES	799
The relationship and epidemiology of acute terminal ileitis and Crohn's disease J. KEWENTER, L. HULTÉN, AND N. G. KOCK	801
Enzyme changes in human small bowel mucosa during culture <i>in vitro</i> J. D. MITCHELL, JUDITH MITCHELL, AND T. J. PETERS	805
<i>Technique</i>	
A modification to the method of George for studying gastric emptying J. N. HUNT	812
<i>Progress report</i>	
Alpha-fetoprotein in primary liver cancer and other diseases MICHAEL KEW	814
The British Society of Gastroenterology	822
British Society for Digestive Endoscopy	842
Notes and activities	844

No. 11 NOVEMBER 1974

Excisional surgery with ileostomy for Crohn's colitis with particular reference to factors affecting recurrence D. M. STEINBERG, R. N. ALLAN, H. THOMPSON, B. N. BROOKE, J. ALEXANDER-WILLIAMS, AND W. T. COOKE	845
Oesophageal acid clearing: One factor in the production of reflux oesophagitis C. STANCIU AND JOHN R. BENNETT	852
Hyperphagia in intestinal disease R. J. C. HALL AND B. CREAMER	858
The toxicity of certain cereal proteins in coeliac disease H. J. CORNELL AND R. R. W. TOWNLEY	862
Measuring the response of the jejunal mucosa in adult coeliac disease to treatment with a gluten-free diet B. L. CHAPMAN, K. HENRY, F. PAICE, N. F. COGHILL, AND J. S. STEWART	870
Localization of calcium-binding protein in intestinal tissue by immunofluorescence in normal, vitamin-D-deficient and uraemic subjects K. HELMKE, K. FEDERLIN, P. PIAZOLO, J. STRÖDER, R. JESCHKE, AND H. E. FRANZ	875
Duodenal reflux during insulin-stimulated secretion R. G. FABER, R. C. G. RUSSELL, C. ROYSTON, P. WHITFIELD, AND M. HOBSLEY	880
A comparison between secretin alone and sequential and simultaneous secretin and cholecystokinin administration in the assessment of pancreatic function JONATHAN CLAIN, SIMMY BANK, G. O. BARBEZAT, B. H. NOVIS, AND I. N. MARKS	885
The role of secretin in the inhibition of gastric secretion by intraduodenal acid A. S. WARD AND S. R. BLOOM	889
Utilization of urea nitrogen for albumin synthesis in the stagnant loop syndrome RAE VARCOE, D. HALLIDAY, AND A. S. TAVILL	898
Thoracic duct and hepatic lymph in idiopathic portal hypertension A. K. S. SAMANTA, V. S. SAINI, P. N. CHHUTANI, B. S. PATRA, S. VASHISTA, AND D. V. DATTA	903
A study of carbohydrate metabolism in postnecrotic cirrhosis of liver ROSE T. T. YEUNG AND CHRISTINA C. L. WANG	907
<i>Progress report</i>	
The present position concerning gallstone dissolution G. D. BELL	913
Notes and activities	930

No. 12 DECEMBER 1974

Identifying toxic fractions of wheat gluten and their effect on the jejunal mucosa in coeliac disease A. S. DISANAYAKE, D. W. JERROME, R. E. OFFORD, S. C. TRUELOVE, AND R. WHITEHEAD	931
Gluten-sensitive enteropathy: Synthesis of anti-gliadin antibody <i>in vitro</i> Z. MYRON FALCHUK AND WARREN STROBER	947
Indices of granulocyte activity in inflammatory bowel disease S. P. KANE, A. V. HOFFBRAND, AND G. NEALE	953
Effects of sulphasalazine (Salozopyrin) on faecal flora in patients with inflammatory bowel disease BERYL WEST, R. LENDRUM, M. J. HILL, AND GEOFFREY WALKER	960
The relative importance of the factors involved in the absorption of vitamin E in children D. P. R. MULLER, J. T. HARRIES, AND J. K. LLOYD	966
Studies of lactic dehydrogenase content in rectal mucosal biopsies P. S. HUNT, P. M. DENNIS, P. JABLONSKI, S. K. KHOO, L. MCCLEOD, H. D. P. THOMSON, AND J. MCK. WATTS	972

Contents

	<i>Page</i>
Electrical potential difference and absorption of water, sodium, and potassium by the terminal ileum of ileostomy patients J. PRADO p. de MORAES-FILHO, C. SALAS-COLL, LAURIE BLENDIS, AND C. J. EDMONDS	977
Impairment of 'ileostomy adaptation' in patients after ileal resection G. L. HILL, W. S. J. MAIR, AND J. C. GOLIGHER	982
Use of bumetanide in the treatment of ascites due to liver disease P. J. A. MOULT, M. R. LUNZER, D. B. TRASH, AND S. SHERLOCK	988
Coagulation factor concentrate in the treatment of the haemorrhagic diathesis of fulminant hepatic failure B. G. GAZZARD, M. L. LEWIS, G. ASH, C. R. RIZZA, E. BIDWELL, AND ROGER WILLIAMS	993
Effects of lactulose and other laxatives on ileal and colonic pH as measured by a radiotelemetry device R. L. BOWN, J. A. GIBSON, G. E. SLADEN, B. HICKS, AND A. M. DAWSON	999
<i>Progress report</i>	
The circulation of the small bowel mucosa O. LUNDGREN	1005
Notes and activities	1014
Notes on books	1014

Index to Volume XV

Page numbers preceded by '(P)' refer to the summaries of papers at the Meetings of the British Society of Gastroenterology and other Societies.

- ABO blood groups and Rhesus negativity in primary biliary cirrhosis, 480
- ACCARY, J. P. See BONFILS, S., MIGNON, M., *et al.*
- Achalasia, unconjugated hyperbilirubinaemia in, 121
- Acid and saline matter in animal stomach, nature of, *follows* p. 82
- Acidosis, renal tubular, autoimmune liver disease associated with, cell-mediated immunity to human Tamm-Horsfall glycoprotein in (P), 826
- ACKERY, D. M. See BURROWS, F. J., FLEMING, J. S., *et al.*
- Adenocarcinoma of bile ducts, relationship of anatomical location to clinical features in (P), 829
- of large intestine, and adjacent transitional epithelium, enzyme histochemistry of, 783
- Agarose medium, peripheral leucocyte migration in inflammatory bowel disease in, 294
- Agglutinating antibodies in duodenal secretions of infants with enteropathic *E. coli* gastroenteritis (P), 834
- AGNEW, J. E. See AJDUKIEWICZ, A. B., AGNEW, J. E., *et al.*
- AHRÉN, C. See MYRVOLD, H. E., KOCK, N. G., *et al.*
- AJDUKIEWICZ, A. B., AGNEW, J. E., BYERS, P. D., WILLS, M. R., and SHERLOCK, S.: The relief of bone pain in primary biliary cirrhosis with calcium infusions, 788
- Albumin, serum, gastric clearance in normal subjects and in gastro-duodenal disorders, 194
- synthesis in stagnant loop syndrome, utilization of urea nitrogen for, 898
- Alcohol ingestion, acute and chronic, gastric epithelial cell turnover after (P), 336
- , primary liver cell carcinoma and chronic liver disease (P), 343
- Alcoholic liver disease in Britain, clinical and pathological patterns related to natural history, 52
- ALEXANDER-WILLIAMS, J., STEINBERG, D. M., FIELDING, J. S., THOMPSON, H., and COOKE, W. T.: Perianal Crohn's disease (P), 822
- See also KEIGHLEY, M. R. B., ASQUITH, P., and ALEXANDER-WILLIAMS, J.
- See also KEIGHLEY, M. R. B., ASQUITH, P., HOARE, A., *et al.*
- See also KEIGHLEY, M. R. B., DRYSDALE, R., *et al.*
- See also STEINBERG, D. M., ALLAN, R. N., *et al.*
- Alimentary disease, faecal hydroxystearic acid in, incidence and significance of, 614
- vagal function, upper, impairment in diabetes (P), 832
- Alkaline phosphatase in auxiliary liver transplantation, 636
- , small-intestinal, action of secretin and pancreozymin on, 39
- ALLAN, R. N., STEINBERG, D. M., DIXON, K., and COOKE, W. T.: Bi-directional sodium flux across the intestinal mucosa in Crohn's disease (P), 839
- See also FERGUSON, R., ALLAN, R. N., *et al.*
- See also STEINBERG, D. M., ALLAN, R. N., *et al.*
- Alveolitis, fibrosing, after sulphasalazine treatment, 185
- Amberlite XAD-2 resin, haemoperfusion through, effect on fulminant liver failure in dogs, 482
- Amino acids and peptides, absorption in coeliac disease and dermatitis herpetiformis, 1
- , glucose and peptides, absorption of, differentiation between jejunum and ileum in, 444
- , plasma levels in pancreatic glucagonomas (P), 340
- Ammonia, breath-analysis tests for, 316
- ANCILL, R. J. See CLARKE, J. R., RICHENS, E. R., *et al.*
- See RICHENS, E. R., WILLIAMS, M. J., *et al.*
- ANDERSON, A. J. B. See FINDLAY, J. M., MITCHELL, W. D., *et al.*
- ANDERSON, C. M. See NELSON, R., MURPHY, G. M., *et al.*
- See ROLLES, C. J., MYINT, T. O. K., *et al.*
- ANDERSSON, H., ISAKSSON, B., and SÖGREN, B.: Fat-reduced diet in the symptomatic treatment of small bowel disease: metabolic studies in patients with Crohn's disease and in other patients subjected to ileal resection, 351
- , and JAGENBURG, R.: Fat-reduced diet in the treatment of hyperoxaluria in patients with ileopathy, 360
- Antenatal diagnosis, α -fetoprotein in, 819
- Antibiotics in biliary disease (P), 824
- Antibodies, agglutinating, in duodenal secretions of infants with enteropathic *E. coli* gastroenteritis (P), 834
- , anti-gliadin, synthesis *in vitro* in gluten-sensitive enteropathy, 947
- , connective tissue, in adult coeliac disease and Crohn's disease, nature and significance of, 284
- , mitochondrial, 664
- , to bacteriophage ϕ X 174, production in Crohn's disease (P), 345
- , viral and bacterial, in primary biliary cirrhosis and other chronic liver disease (P), 826
- , in chronic liver disease, 94
- Antibody activity, paraproteins with, in acute viral hepatitis and chronic autoimmune liver diseases, 396
- Antibody, hepatitis B (Australia). See Hepatitis B antibody
- Antigen, carcinoembryonic, plasma levels, estimation in ulcerative colitis with and without malignant change (P), 828
- Antigen, hepatitis B (Australia). See Hepatitis B antigen
- Antigenaemia, hepatitis B, transient and persistent, serological findings in domestic contacts in (P), 341
- Antigens, histocompatibility, and immunological response to dietary antigens (P), 823
- , in coeliac disease (P), 834
- Anti-gliadin antibodies, synthesis *in vitro* in gluten-sensitive enteropathy, 947
- Antipyrine, d-propranolol and indocyanine green, elimination of, influence of chronic liver disease (P), 837
- α -Antitrypsin deficiency and liver disease, 573
- Antrectomy, gastric acid secretion and serum gastrin levels after, effect of calcium, 622
- Antrum and body of stomach, 'portal system' for transport of activity between (P), 836
- , G cell population, plasma gastrin and gastric acid secretion, correlation between (P), 840
- , innervated, influence on gastrin and acid responses to insulin hypoglycaemia (P), 348
- , intact, importance in prevention of symptomatic duodenogastric reflux (P), 836
- , pyloric, inhibition of gastric secretion by, 420
- ARANA, R. M. See ROUX, M. E. B., FLORIN-CHRISTENSEN, A., *et al.*
- ARDILL, J. See HAYES, J. R., ARDILL, J., *et al.*
