SIR CHARLES DODDS  
HENRY T. HOWAT  
THOMAS HUNT  
ANDREW W. KAY

H. A. MAGNUS  
C. NAUNTON MORGAN  
HAROLD RODGERS  
SHEILA SHERLOCK  
NORMAN C. TANNER  
GEOFFREY WATKINSON

EDITOR *British Medical Journal*  
HAROLD C. EDWARDS (*Editor*)

F. AVERY JONES (*Editorial Secretary*)

The object of *Gut* is to publish original papers and reviews concerned with practice and research in the field of gastroenterology. The field is that of alimentary, hepatic, or pancreatic disease, and papers may cover the medical, surgical, radiological, or historical aspects. They may also deal with the basic sciences concerned with the alimentary tract, including experimental work. The report of a single case will be accepted only if it is of sufficient interest in relation to a wider field of research.

There will be a section devoted to short papers on laboratory and surgical techniques and methods of investigation where these are not part of a larger survey.

**COMMUNICATIONS** Papers should be addressed to the Editorial Secretary, *Gut*, Central Middlesex Hospital, Park Royal, London, N.W.10. Papers are accepted only on the understanding that they are not published elsewhere without previous sanction of the Editorial Board. They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing Christian name) only, and the name and address of the hospital or laboratory where the work was performed. A definition of the position held by each of the authors in the hospital or laboratory should be stated in a covering letter to the Editor. Communications should be kept short, and illustrations should be included when necessary; coloured illustrations are allowed only if monochrome will not satisfactorily demonstrate the condition. It is not desirable that results should be shown both as tables and graphs.

**ILLUSTRATIONS** Diagrams should be drawn in Indian ink on white paper, Bristol board, or blue-squared paper. The legends for illustrations should be typed on a separate sheet and numbered to conform with the relevant illustrations. Photographs and photomicrographs should be on glossy paper, unmounted. TABLES should not be included in the body of the text, but should be typed on a separate sheet.

**ABBREVIATIONS** In general, symbols and abbreviations should be those used by British Chemical and Physiological Abstracts. In any paper concerning electrolyte metabolism, it is desirable that data be calculated as mEq./l. as well as (or alternatively to) mg./100 ml.

**REFERENCES** These should be made by inserting the name of the author followed by year of publication in brackets. At the end of the paper, references should be arranged in alphabetical order of author's name. Such references should give author's name, followed by initials and year of publication in brackets, *the title of the article quoted*, the name of the journal in which the article appeared, the volume number in arabic numerals, followed by numbers of first and last pages of article. Abbreviations are according to *World Medical Periodicals* (published by B.M.A. for World Medical Association), thus: Chandler, G. N., Cameron, A. D., Nunn, A. H., and Street, D. F. (1960). Early investigations of haematemesis. *Gut*, 1, 6-13.

**REPRINTS** Fifty reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; an indication of the number of reprints required should be sent to the Publishing Manager on the post-card provided with the proofs.

**NOTICE TO ADVERTISERS** Applications for advertisement space and for rates should be addressed to the Advertisement Manager, *GUT*, B.M.A. House, Tavistock Square, London, W.C.1.

**NOTICE TO SUBSCRIBERS** The annual subscription rate is £3 3s. in the United Kingdom and the Republic of Ireland, and £3 10s. in all countries overseas. The following are examples of equivalents to the sterling subscription rates: Australia £A.4 7s. 6d.; Belgium Fr. 490.00; Canada \$11.00; Denmark Kr. 68.00; France NF. 48.00; Germany DM. 39.50; India and Pakistan R. 46.75; Italy L. 6,100; Japan Yen 3,525; Netherlands G. 35.50; Norway Kr. 70.25; South Africa Rnd. 7.00; Spain Pta. 600.00; Sweden Kr. 50.50; Switzerland Fr. 42.50; U.S.A. \$10.00; Venezuela Bol. 44.50. Payment for overseas subscriptions should be made in sterling, i.e. £3 10s., and sent by Mail Transfer—*Charges Remitter*—through a Bank. Orders can also be placed locally with any leading subscription agent or bookseller.

**COPYRIGHT** © 1963 by *GUT*. All rights of reproduction are reserved in respect of all papers, articles, tables, illustrations, etc., published in this Journal in all countries of the world.

authors who have written previously on this subject and some of whom have gone to endless trouble to answer my many letters enquiring after their patients.

Thanks are also due to Professor C. V. Harrison and the Department of Morbid Anatomy, to the Department of Medical Illustration for the tables and photomicrographs, and to the Royal Society of Medicine for some obscure references and translations.

I must also acknowledge the permission of the Medical Director-General of the Royal Navy to publish.

## The March 1963 Issue

## THE MARCH 1963 ISSUE CONTAINS THE FOLLOWING PAPERS

Electron microscopic changes associated with water absorption in the jejunum A. WYNN WILLIAMS

Post-operative absorption of water from the small intestine L. F. TINCKLER and W. KULKE

A case of jaundice due to unilateral hepatic duct obstruction with relief after hepatic lobectomy STEVEN MISTILIS and LEON SCHIFF

A comparison of the use of Aldactone and Aldactone A in the treatment of hepatic ascites STANLEY SHALDON, JILL A. RYDER, and MYRON GARSENSTEIN

Liver disease and ammonia intoxication KENNETH S. WARREN and STEVEN SCHENKER

Torsion of the gall bladder R. K. GREENWOOD

Duodenal diverticula and haemorrhage M. J. S. LANGMAN

The reliability and reproducibility of the Schilling test in primary malabsorptive disease and after partial gastrectomy J. F. ADAMS and E. JUNE CARTWRIGHT

The influence of diet on the quality of faecal fat in patients with and without steatorrhea JOAN P. W. WEBB, A. T. JAMES, and T. D. KELLOCK

Studies in dogs on the biphasic nature of the gastric secretory response to hypoglycaemia and other stimuli with special reference to the role of the adrenals W. SIRCUS, C. J. W. HUSTON, R. M. PRESHAW, H. BASSÖE, and R. A. HARKNESS

1 *The pattern of the biphasic response and the relation to gastric innervation and to hypoglycaemia*

2 *The relationship of the gastric secretory response to hypoglycaemia and to changes in the level of plasma cortisol*

3 *The effect of bilateral adrenalectomy*

4 *The interrelationship of the phases of the response and the role of the antrum*

The pancreas and gastric secretion: failure of pancreatectomy to prevent inhibition of gastric secretion by secretin JOSEPH A. KENNEDY and GEORGE A. HALLENBECK

A 5-hydroxytryptophan-secreting carcinoid tumour A. C. P. CAMPBELL, A. H. GOWENLOCK, D. S. PLATT, and P. J. D. SNOW

Histochemistry of the gastric mucosa J. PINTO CORREIA, M. ISABEL FILIPE, and J. COSTA SANTOS

1 *In normal mucosa*

2 *In pathological conditions and in changes induced by histamine*

Studies on the effect of vagotomy on small intestinal motility using the radio-telemetering capsule B. ROSS, B. W. WATSON, and A. W. KAY

Localization of intestinal bleeding using a miniature Geiger counter B. MCKIBBIN and B. W. WATSON

British Society of Gastroenterology

Gastroenterological Society of Australia
