

Supplemental Table 16: Methylation subtype status of EAC cell lines.

EAC cell lines	Source	Methylation Subtype
Eso-Ad1	A kind gift from Dr. Hector Alvarez*	HM
ESO26	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	HM
ESO51	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	HM
OE33	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	HM
FLO-1	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	IM
OACM5-1	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	LM
SK-GT-4	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	LM
OACP4C	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	MM
OE19	the European Collection of Authenticated Cell Cultures (ECACC) through Sigma Aldrich	MM
