

Supplementary figure 1. Description of the mouse tumor models.

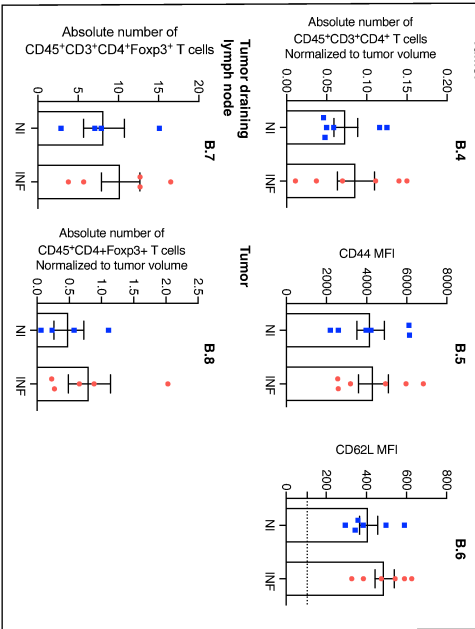

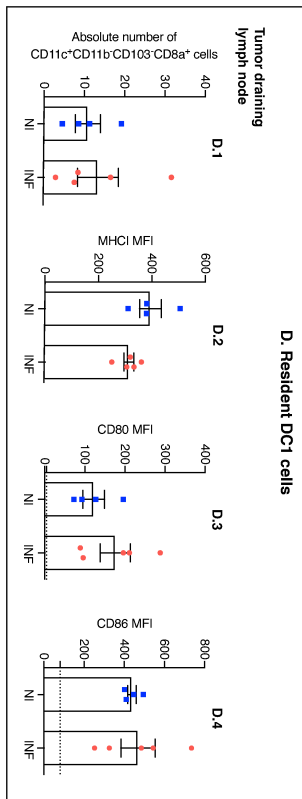

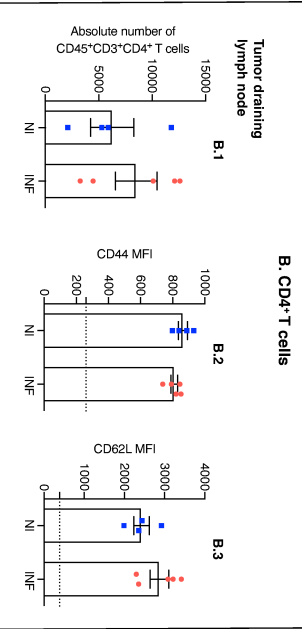

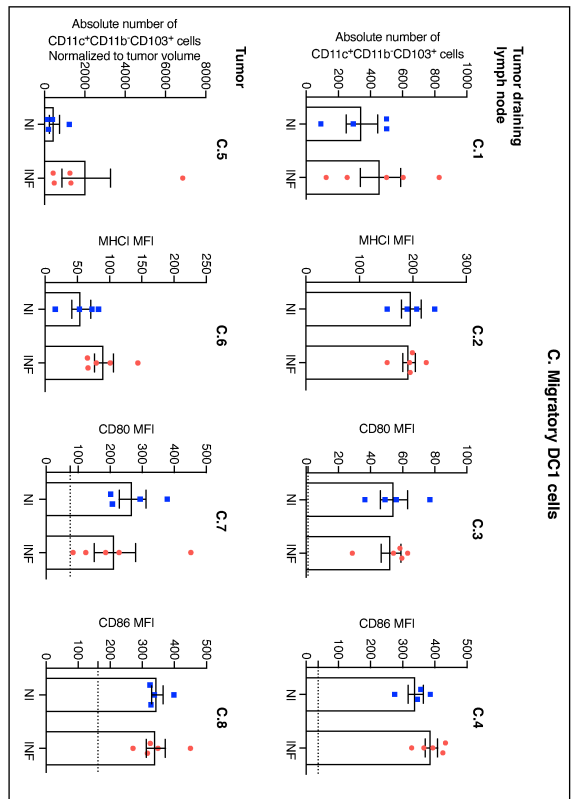

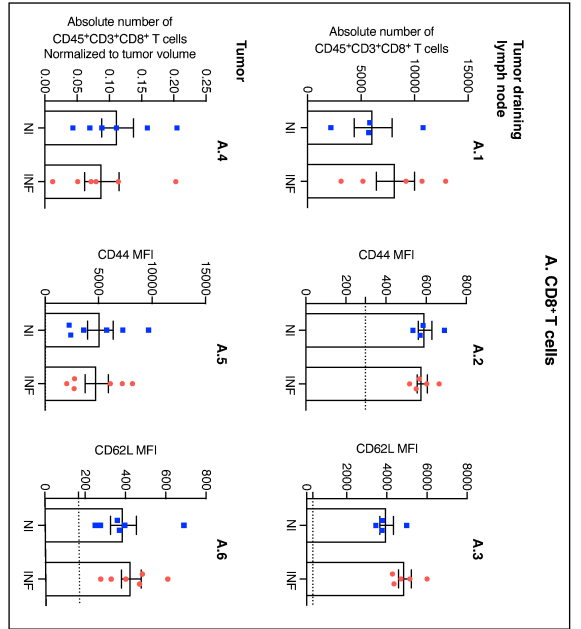

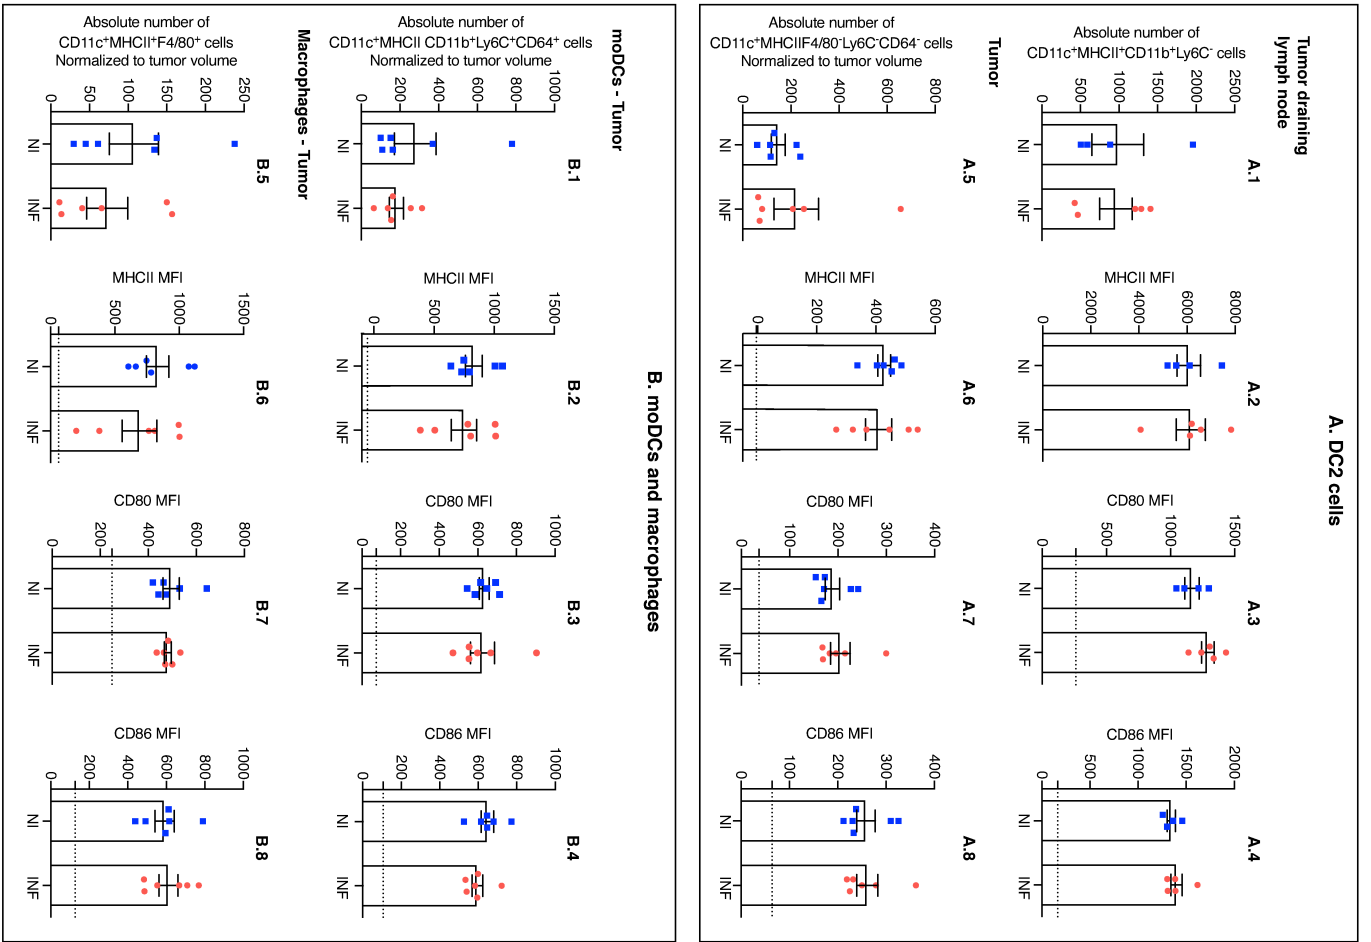

Supplementary figure 4. Steady state analysis

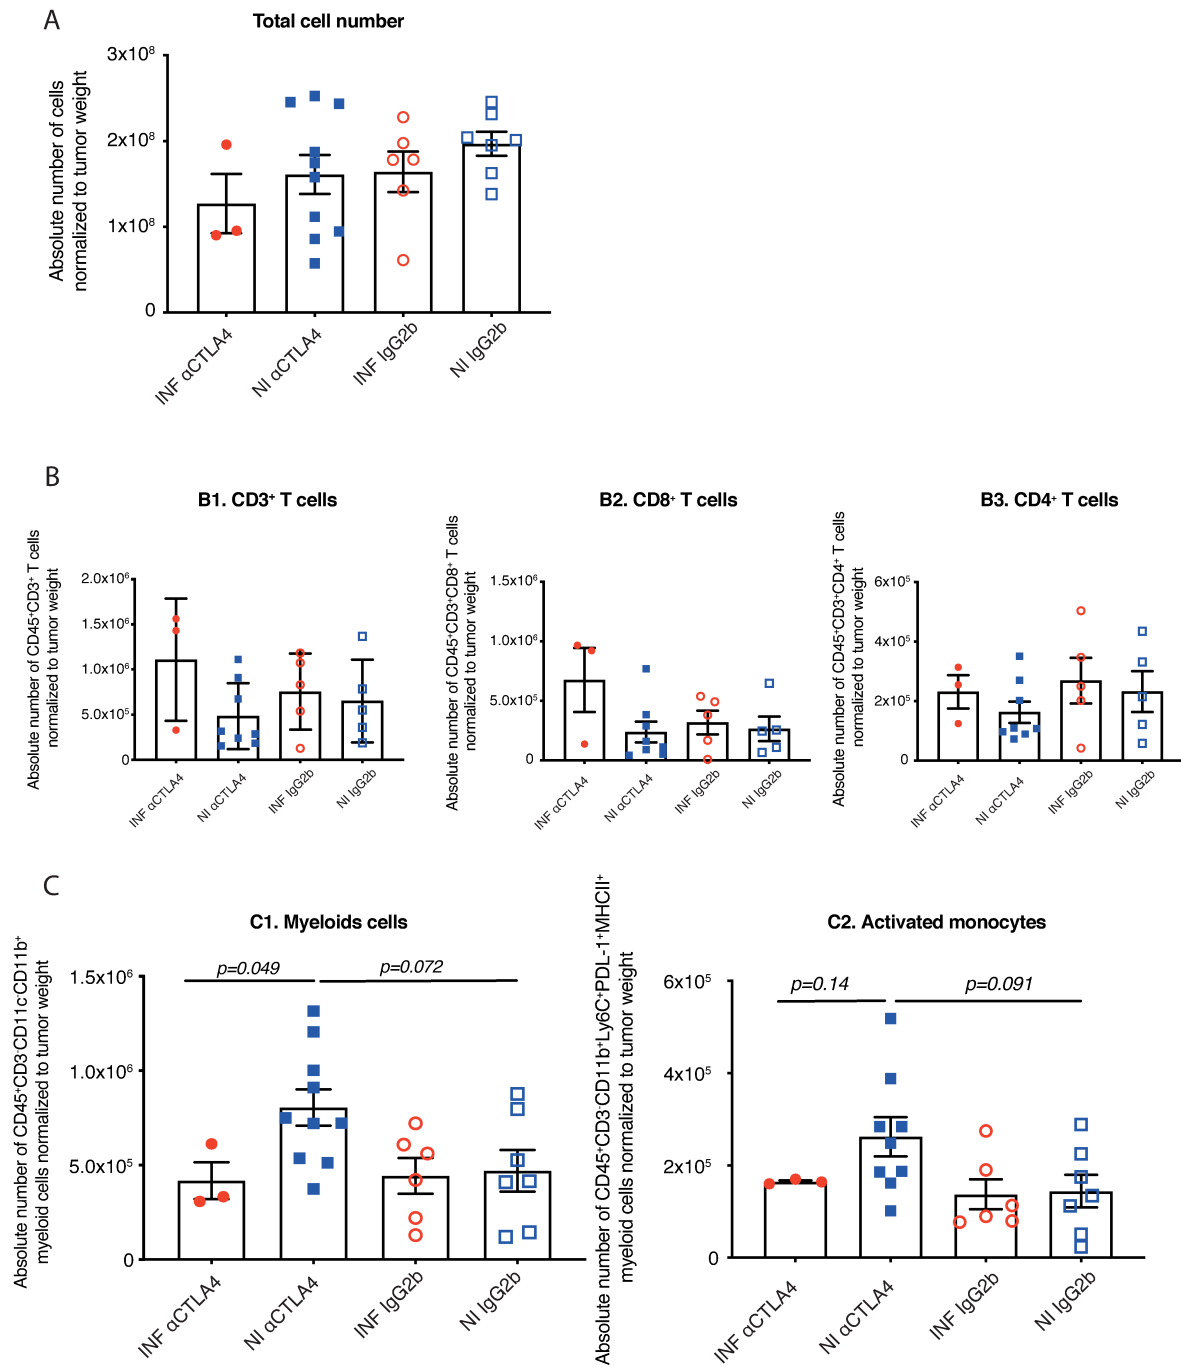

Supplementary figure 5. Cell Counts

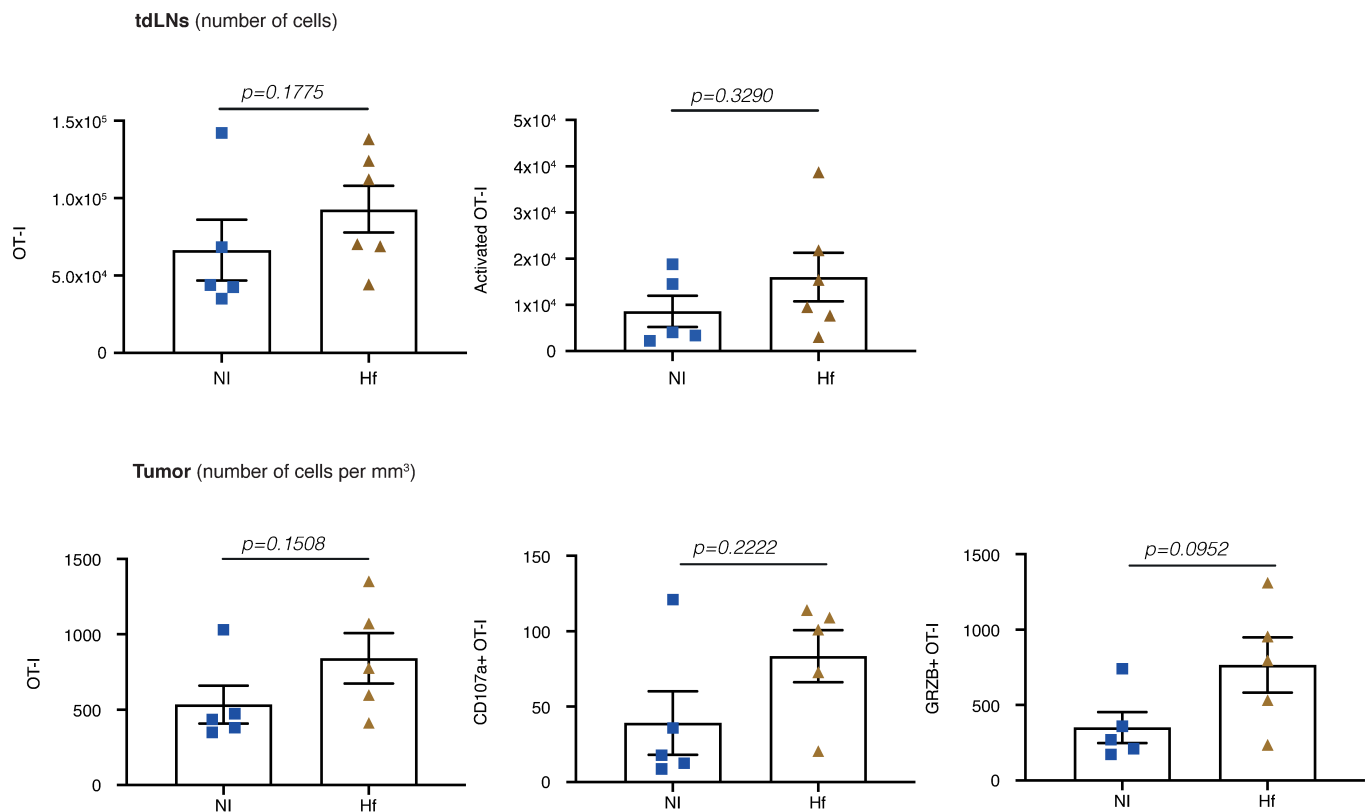

Supplementary Figure 6. MC38 Tumor-bearing mice

Supplementary figure 7. MC38 Tumor-bearing mice

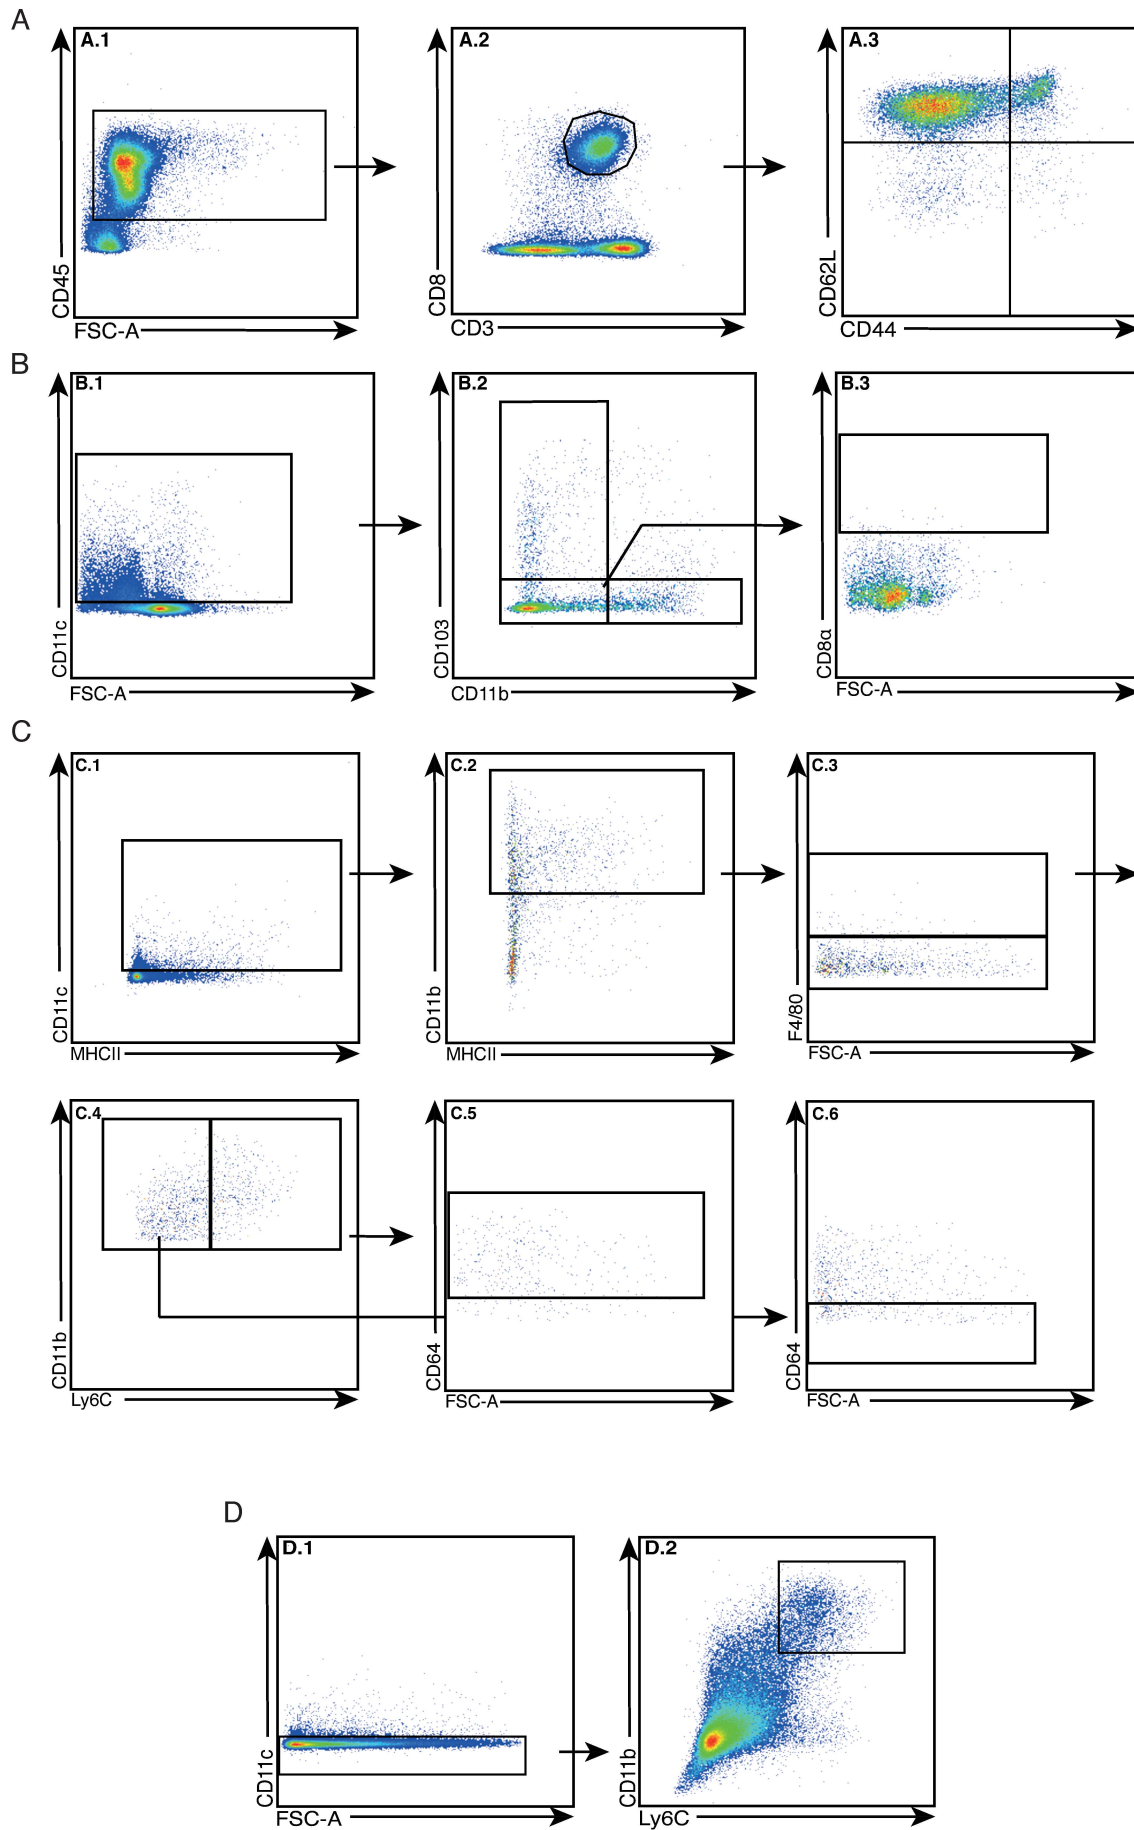

**Supplementary figure 8.**

H. pylori substantially affects tumor myeloids cells in MC38 tumor-bearing mice undergoing anti-CTLA4 immunotherapy.

A Absolute number and activation status of OT-I cells**B Vaccine-induced cytotoxic activities of OT-I cells****Supplementary figure 9.** *H. felis* infection does not jeopardize the tumor specific immune response

Supplementary figure 10. Effect of neutralization of IFN γ on the efficacy of vaccine-based cancer immunotherapy

Supplementary figure 11. Gating strategy

Supplementary table 1. Summary of clinical characteristics of the Dijon cohort
